DESCRIPTION

The 2025 Volkswagen Golf TSI R represents a high performance iteration of this popular hatchback. This model features a powerful 2.0 litre petrol engine paired with a four wheel drive system, ensuring capable handling and traction in various driving conditions. As a Euro 6 compliant vehicle, it meets modern emission standards while delivering impressive performance, highlighted by its ability to accelerate from 0 to 62mph in just 4.6 seconds.

This vehicle is equipped with a range of advanced features designed to enhance comfort and convenience for all passengers. The interior includes a heated, leather wrapped sports steering wheel with multifunction touch controls and shift paddles, providing the driver with precise command. Comfort is further managed by the Air Care Climatronic 3-zone system, which allows for independent rear air conditioning control. Visibility and safety are supported by matrix LED headlights that include automatic control, poor weather lighting, and a coming home-leaving home feature, alongside a rear view camera to assist with parking. Practicality remains a priority, as the design incorporates a large boot space, making this model a versatile choice for those who require both performance and everyday utility.
